ARCHIVE DATE: May 26, 2026

Mr. President,

I am writing to formally petition the Government of the United States for the formal or informal recognition of the Suquelineese people, politically organized as the Suquelish Republic.

We request recognition as an Aphorganismic Matrix-Idahonean Basilico-Sacerdotal Autogenous Non-Territorial Theocratic Idiosynarchic Ecclesiastical-Diaspora Nation.

FOUNDATIONAL IDENTITY AND HISTORY

The Suquelish Republic was established on April 1, 2012, by Marc Matthew Mason. For the past fourteen years, we have cultivated a unique model of governance and cultural identity designed to serve our global diaspora. While our citizenry is geographically scattered and functions without physical borders, our foundational history and sovereign origin are permanently anchored to our original homeland in Idaho, United States.

CORE GOVERNANCE PILLARS

Our governance is built upon the following distinct pillars:

Matrix-Idahonean Origin: Our nation was conceived, incubated, and birthed within the borders of the State of Idaho. This geographic origin remains central to our historical identity.

Aphorganismic Separation: In accordance with our deep spiritual mandates, we have consciously set ourselves apart from worldly political systems to establish a pure, self-governing society.

Basilico-Sacerdotal Authority: We operate under a sovereign framework where our leadership exercises a divine, royal, and priestly authority to guide, protect, and maintain order among our flock.

Non-Territorial Autogenous Governance: The Suquelish Republic does not seek to claim or seize physical territory. We exist as a borderless, self-governing, and self-generated diaspora. Our laws, unique culture, and internal order apply strictly to our people, regardless of where they reside.

INSTITUTIONAL AUTONOMY

The Suquelish Republic is a fully realized nation, encompassing every functional component necessary for the preservation and flourishing of our people. Our institution maintains:

- **Religious Foundation:** As a religious nation, our identity is deeply rooted in our spiritual tenets.
- **Governance & Justice:** Our own comprehensive internal governmental structure, codified laws, and judicial courts.
- **Cultural Integrity:** Our own language, unique cultural dress, distinct customs and courtesies, and a rich tapestry of holidays.
- **Heritage & Mythos:** Our own legends, myths, and stories that define our unique mythos of cultural identity.
- **Culinary Identity:** Our own culinary style and proprietary recipes.
- **Social Support:** Our own welfare system networks, ensuring the well-being of our citizens.

SOVEREIGNTY AND SELF-DETERMINATION

It is a fundamental principle of our Republic that individuals who choose to be Suquelish citizens possess the inherent right and ability to claim such nationhood without the permission of the State. A nation is defined by its people; it inherently possesses the right to form a sovereign, independent identity distinct from, yet existing alongside, other nations.

We write this letter to inform the United States of the continued development of the Suquelish Republic and to assert that our existence as a distinct, self-governing spiritual nation—born on American soil but operating globally—is an expression of fundamental liberty.

We seek an amicable, peaceful, and mutually respectful relationship with the United States government. Recognizing the Suquelineese people acknowledges our unique status and our commitment to a vision of post-territorial sovereignty and cultural self-determination.

Thank you for your administration's time, consideration, and attention to this historic request. We welcome further dialogue through our designated representatives.

Respectfully submitted,

Jeffrey David Mason
